With Special Guest Manfred Raunigg

Manfred lives in Golden Bay, New Zealand where he and his family grow beautiful organic produce, raise chickens and ducks, and welcome international visitors regularly on their idyllic bio-dynamic farmlet.

They also manage a very successful home based business, helping people on their Journey Toward Optimum Wellbeing, supporting them in creating a healthy balance in all aspects of their life: Physically, Emotionally, Mentally, Spiritually, Financially and Socially.

Manfred shares what he found on his journey, taking this potentially rather complicated issue back to simple 'Common Sense'. He reminds the listener of their true potential, by taking charge and full responsibility for their own Journey through this amazing life... and then he will answer any questions you may have.

Are your Health and Prosperity connected?

Manfred Raunigg will explain how he thinks they are...

**Help others be successful.
Live the life of your dreams.
Create true and lasting health.
Achieve financial and time freedom.**
